

These are our hands.
Now the future is in your hands.

Dear Senator or Representative _____:

This is a tracing of _____'s hand. I am sending it to you with the 1Sky platform. I urge you to support these science-based solutions to the climate crisis so that all children can have hope of a decent, sustainable future.

As a first step towards that goal, I am also urging you to join the movement for a Separation of Oil & State by renouncing any further campaign funding from the oil industry.

Sincerely,

First and Last Name, Age

Climate Plan to Save Our Planet

Dear Senator or Representative,

Below is a three-point action agenda for solving global warming. Please support all of these measures when considering any future climate or energy bills.

MOBILIZE AMERICA FOR SOLUTIONS: Create 5 million new jobs with a sweeping national mobilization for climate solutions, energy independence, and investment in a new energy economy. Conserve 20% of our energy by 2015. Invest in efficiency and a Clean Energy Corps, and challenge all sectors of society to save energy immediately.

SECURE OUR FUTURE: Do what science says is necessary: reduce global warming pollution at least 25% below 1990 levels by 2020. Get on a realistic path to the reductions needed to prevent dangerous climate disruption: at least 80% below 1990 levels by 2050. Design our climate policy to support and reward accelerated public and private investment in solutions.

TRANSFORM OUR ENERGY PRIORITIES: End development of new coal plants that emit global warming pollution. End subsidies for Big Oil. Demand a Separation of Oil and State and refuse to accept money from the oil industry. Move toward a clean energy future with strong standards and incentives for energy efficiency and renewable energy.

Sincerely,
